IME above are First Class, justly popular, and prompt puring companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but few equals, and no superiors. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, in times or the fluctuations of the market, and liable, in times of panic, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing partial and one-sided statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital twice the amount, and in

most instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies send without delay, and farms risks for a sories of years taken at less rates than can be done by M. tual Companies, and a certainty given Instead of an uncertainty. All lesses promptly adjusted and paid.

New York Life Insurance Company. CASH CAPITAL OTER - \$1,900,000 all well invested for the benefit of Polley holders, so

all well invested for the benent of Pousy noners, so that the profits of this vast sum pay a large proportion of their annual premiums. This is unquestionably the very best false Company doing business in this state.

DAILY GAZETTE.

JANESVILLE, WISCONSIN, WEDNESDAY, APRIL 2, 1862.

A distinguished officer writes us news, under date Magdalena, Sonora, Dec. 10th, concerning the movements of secessionists towards that quarter, under Baylor. This is, perhaps, the advanced guard of the expedition mentioned some weeks since as being in course of organization under Van Dorn, and which has for some time been

TERRIBLE PLOOD-GILA CITY ENTIRELY DE-STROYED.

[From the Alta Californian, Feb. 11.] Colonado City, Jan. 27. Our desert country has been the scene of the largest flood within the knowledge of the oldest inhabitant. On the 22d inst. the Colorado and Gila rivers commenced rising simultaneously. The greater body of water coming from the Colorado caused the Gila to back and overflow the country. STANDARD MACHINES, Before word could be sent to the fort the

water was four feet high and rising rapidly. Major Rigg immediately detailed twenty men to render assistance to the sufferers. They crossed the Colorado in a scow, but before they renched the scene of destruction Mr. Hooper's fine adobe warehouse, 140 feet long, was entirely destroyed, together with all the fine buildings belonging to the Colorado Navigation Company. Capt. Geo. A. Johnston's elegant dwelling was nearly destroyed. The principal sufferers are Messrs. Hooper, Samuel Wells, B. F. Gage and the Colorado Navigation Company. The loss will probably exceed \$30,000. Gila city was entirely destroyed by the

flood. ISLAND No. 10, March 29. The rebels had a magnificent scare yesterday. The rising water has inund-duted the banks of the river and the whole surrounding country, and in many cases has carried off fences and farming paraphernalia of all kinds. In the present instance the ravenous waters seized upon a small farm-house, and carried it off, body and boots, and at an early hour in the morning it came floating past here with the roof only visible above the surface. The five mile current soon carried it into the rebel lines, and they espying it, immediately concluded that it must be some device of Yankee ingenuity for doing mischief. If it wasn't a floating battery it must be an infernal machine, and if it wasn't an infernal machine it must be an immense torpedo, or at least some cute invention for running the blockade. So they opened upon it and sent shot and shell thick and heavy around it. The old house stood the hombardment bravely, and, although pierced in a hundred places, it still floated calmly on, and fairly with for the teeth, call at Tablian & Collins.

Tablian & Collins.

Tablian & Collins.

Tablian & Collins. ran the gauntlet of all the batteries, when, and venturesome body of secesh charged Bathing Sponges, Bathing Towels, upon it and boarded it. The climbed upon Bathing Sponges, Bathing Towels, the ridge of the roof, sat astride and peep-

ed through the cracks. They inserted their bayonets under the boards and shingles and ripped them up, and there, in the solitude of an imprisoned garret, with the turbulent waters bubbling within a few inches of her feet, they found an antiquated cat. whose screnity was undisturbed by the fearful race she had run, and whose only anxicty seemed to be to get out of her uncomfortable position. The details as given by a refugee, were very ludicrous. The rebels mourned a large amount of powder and shot wasted, and nary Yankee circumvented. IMPUDENCE UNPARALLELED,-We heard the other day of a letter from a young

gentleman, now a prisoner in Indainapolis, to his mother in Kentucky, in which he stated that he had always been taught that the people of the South were a superior race to those in the North, and what he saw while a prisoner only convinced him of the truth of the position. "Why, mother." says he, "we are awaited on here by these says he, "we are awaited on here by these people and receive as much attention, with the same apparent docility and obsequious. ness which characterizes our slaves, in their attentiveness to our slighest whishes, I am fully convinced, had I doubted it betore, that the South is the ruling race, and must triumph in the end." This, we understand, if not the language, was about the substance of the young gentleman's reflection. It also shows what hidden mines of gratitude have been opened out by the sympathy and kindness of the people of Northern cities toward the misguided

THE EXPEDITION TO NEW MEXICO-GEN-ERAL PRICE.-It is now rendered certain that a large portion of the troops now in Kansas are ordered to New Mexico, and that Major Brice, of the regular army, has been made a Brigadier-General, and will assume command of the expedition. The order for Gen. Deitzler to join Curtis has been countermanded, and his brigade will meet the troops in the Northern part of the State, probably at Lawrence, to get ready for the march to Santa Fe. Flechuced to \$70. No. 2, Standard Shuttle Machine, formerly sold at \$100,

Flociuoed to \$75. Singer's Letter A Machine.

Is the best Machine In the word for Family Sewing and Light Manufacturing purposes; Price, (with Hommer,) and beautifully ernamented,

FIFTY DOLLARS. The Nos. 1 and 2 machines are of great espacity and

application for manufacturing purposes.
Our No.3 machines are especially adapted to all kinds of light and heavy LEATHER WORK, In Carriage Trimming, Boot and Shoe Making, Hararm long enough to take under it and stitch the largest slowl dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these muchines is 21 incher long, and the shuttle will held six times the usual

quantity of thread. The large machines work as fast as small ones. We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and machines, making has them, the interiors strict, and are destined to be as colebrated for Family Sowing and light manufacturing purposes as our standard ma-chines are for manufacturing purposes in general. We have always on hand

Hemming Gnages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oll in Bottles, etc., etc.

We manufacture our own Neodies, and would warn all persons using our machines not to buy any others. We know that there are needles sold of the most inferi-or quality, at higher prices than we charge for the best. The needles sold by as are manufactured especially for our machines. A bad needle may, render the best machine almost useless. Our customers may rest assured that all our Branch Offices are furnished with the

GENUINE ARTICLE.

In case of small purchases, the money may be sentin postage stamps or bank notes.

20 Correspondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

22 All persons requiring information about Sewing Machines, their size, prices, working capacities, and the best methods of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of

1. M. SINGER & CO.'S GAZETTE, which is a beautifully illustrated Pictorial Paper. If will be sent Gratis '

We have made the above Reduction in Prices with ness, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair. The qualities to be looked for in a machine are: certainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation with the least labor. Machines to combine these essen

qualities not only work well at rapid as well as slou rates of speed, but last long in the fluest possible work ing order. Our machines, as made by us, will earn more money with less labor than any others, whether in initiation of ours or not. In fact, they are cheaper they are other as all they are cheaper than any other machine as a gift.

NUE above are Piect Class, justly popular, and prompt A paying companies. They invite investigation into their condition and sollect business antirely upon their real merits. In point of solvency and reliability and honorable deading, they have but five equals, and no superfore. They are founded upon the very best securities in the world—first class bonds and mergages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the finetunitions of the market, and liable, in times of partial, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well extended to must eating the reliad of competition, well extended to must eating the subject to relissure their outstanding risks, the above named companies always have and keep over and above their capital toics the annount, and in a stimulation they deline as needed for the relissurace of all their risks. The above is the oldest company doing business in this state, and with psculiar propriety has been denominated "The Oid Hortfort." As an indemnity to the insured, it refers to a solid million of assets well invested; and if anything were needed to commend it to the public for liberal parramage, we might offer its history of success in business and honorable dealing with its patrons, for over half a century, as amply sufficient for the purpose. the purpose.

Interesting from California. FOUR THOURAND REBELS MARCHING ON FORT

YUMA. [From the Alta Californian, Feb. 11.]

Our correspondent at Tueson reports a force of 3,900 men on their way to Fort Yuma; 3,000 are at Mesilla under Gen. Sibey, and 900 at Tueson, under Col. Baylor. They will be sure to recive a warm recep-tion, as our gallant volunteers are anxiously awaiting their approach. It is to be hoped that we shall soon receive orders to move towards Tueson and Mesilla, as that nest hole of traitors needs a cleaning out. FILIBUSTERING EXPEDITION INTO SONORA. (From the San Francisco Herald and Mirror, Feb 7.] A distinguished officer writes us news under date Magdalena, Sonora, Dec. 10th, concerning the movements of secessionists owards that quarter, under Baylor. is, perhaps, the advanced guard of the expedition mentioned some weeks since as being in course of organization under Van Dorn, and which has for some time been

lost sight of. TERRIBLE FLOOD-GILA CITY ENTIRELY DE-STROYED.
[From the Alta Californian, Feb. 11.]

COLORADO CITY, Jan. 27. Our desert country has been the scene of the largest flood within the knowledge of the oldest inhabitant. On the 22d inst. the Colorado and Gila rivers commenced rising simultaneously. The greater body of water coming from the Colorado caused

the Gila to back and overflow the country. Before word could be sent to the fort the water was four feet high and rising rapidly. Major Rigg immediately detailed twenty men to render assistance to the sufferers. They crossed the Colorado in a scow, but before they reached the scene of destruction Mr. Hooper's fine adobe warehouse, 140 feet long, was entirely destroyed, together with all the fine buildings belonging to the Colorado Navigation Company. Capt. Geo. A. Johnston's elegant dwelling was nearly destroyed. The principal sufferers are Messrs. Hooper, Samuel Wells, B. F. Gage and the Colorado Navigation Wells, B. F. Gage and the Colorado Navigation Company. The loss will probably exceed \$30,000.

Gila city was entirely destroyed by the

flood. ISLAND No. 10, March 29. The rebels had a magnificent scare yesterday. The rising water has inund-dated the banks of the river and the whole surrounding country, and in many cases has carried off fences and farming paraphernalia of all kinds. In the present instance the ravenous waters seized upon a small farm-house, and carried it off, body and boots, and at an early hour in the morning it came floating past here with the roof only visible above the surface. The five mile current soon carried it into the rebel lines, and they espying it, immediately concluded that it must be some device of Yankee ingenuity for doing mischief. If it wasn't a floating battery it must be an infernal machine, and if it wasn't an infernal machine it must be an immense torpedo, or at least some cute invention for running the blockade. So they opened upon it and sent shot and shell thick and heavy around it. The old house stood the bombardment bravely, and, although pierced in a hundred places, it still floated calmly on, and fairly ran the gauntlet of all the batteries, when, fearing lest it should escape them, a brave and venturesome body of secesh charged Bathing Sponges, Bathing Towels. upon it and boarded it. The climbed upon the ridge of the roof, sat astride and peeped through the cracks. They inserted their bayonets under the boards and shingles and ripped them up, and there, in the solitude of an imprisoned garret, with the turbulent waters bubbling within a few inches of her feet, they found an antiquated cat, whose serenity was undisturbed by the fearful race she had run, and whose only auxi-ety seemed to be to get out of her uncomfortable position. The details as given by a refugee, were very ludicrous. The rebels mourned a large amount of powder and shot wasted, and nary Yankee circum-

> IMPUDENCE UNPARALLELED.—We heard which is a beautifully ithis rated Pictorial Paper, the other day of a letter from a young the other day of a letter from a young gentleman, now a prisoner in Indain apolis, to his mother in Kentucky, in which he stated that he had always been taught that the people of the South were a superior race to those in the North, and what he saw while a prisoner only convinced him of the truth of the position. "Why, mother." says he, "we are awaited on here by these people and receive as much attention, with the same apparent docility and obsequiousness which characterizes our slaves, in their attentiveness to our slighest whishes. I am fully convinced, had I doubted it betore, that the South is the ruling race, and must triumph in the end." This, we understand, it not the language, was about the substance of the young gentleman's reflection. It also shows what hidden mines of gratitude have been opened out by the sympathy and kindness of the people of Northern cities toward the misguided beings in their midst.

THE EXPEDITION TO NEW MEXICO-GEN-ERAL PRICE.—It is now rendered certain that a large portion of the troops now in Kansas are ordered to New Mexico, and that Major Brice, of the regular army, has been made a Brigadier-General, and will assume command of the expedition. The order for Gen. Deitzler to join Cartis has been countermanded, and his brigade will meet the troops in the Northern part of the State, probably at Lawrence, to get ready for the march to Santa Fe. This news will be most gratifying to our soldiers who are tired of inaction.—Leavenworth Conserva

SINGER & CO.'S STANDARD MACHINES

Well known to be the best for

Manufacturing Purposes:

No. 1, Standard Shuttle Machine, formerly sold at \$90,

Flecluced to \$70. No. 2, Standard Shuttle Machine, formerly sold at \$100,

Reduced to \$75. Singer's Letter A Machine,

S the best Machine in the word for Family Sewing and Light Manufacturing purposes; Price, (with feminer,) and beautifully ornamented, FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making. Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmers' sticking that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inchestiong, and the shutth will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the Interlock stitch, and are destined to be as celebrated for Family Sowing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Lines

Machine Oil in Bottles, etc., etc. We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold of the most tryferior quality, at higher prices than we charge for the best. The needles sold by as are manufactured especially for our machines. A bad needle may render the best marking almost useles. Our customers may rest assured that all our Branch

1. M. SINGER & CO.'S GAZETTE,

We have made the above Reduction in Prices with the two fold view of benefitting the public and ourselves. The public have been swindled by sparious machines made in imitation of ours. The metal in them, from the iron easting to the smallest pieca, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always liable to get out of order, and are sure to cost considerable trouble und movey to keep them in repair. The qualities to be looked for in a machine are: certainly of correct action at all rates of speed, simplicity of construction, great disrability and rapidity of operation, with the least tabor. Machines to combine these easential qualities, must be made of the best metal and faxished to perfection. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose dully bread it may concorn, will find that those having the above qualities not only work well at rapid as well as slow rates of speed, but last long in the finest possible working order. Our machines, a made by m, will corn more money with less tabor than any others, whether in indiction of ours or not. In fact, they are cheaper than any other machines as a gift.

Where breathes the foe but falls before us? With Freedom's soil beneath our feet, And Freedom's banner streaming o'er us!

Consistency of the Milwaukee Sentinel.

The Milwaukee Sentinel has insisted, in a somewhat dictatorial manner, that the generals whom the President appoints should not be criticised—that we must all support the government, on pain of being considered disloyal, or as aiding the enemy so far as the hands of the administration are weakened by such criticism -in a word, we must not do anything whereby the confidence of the people shall be withdrawn from the President, or the generals in command, whom he appoints. Nevertheless, in direct violation of its own rule, it allows a correspondent to reiterate stale falsehoods and exploded lies, against Gen. Fremont | in rendering aid to their patients. whom the president has just reinstated in command of an important division of the army, after an examination into the charges made against him. The hatred of the Sentinel towards Gen. Fremont induces it to violate consistency, and in order to do Gen. Fremont a most inexcusable wrong, with safety to itself, it indulges in its enmity concealed behind the skirts of a correspondent, permitting him to say things which it lacks the courage to assert openly, in the face of the public sentiment of Wis-

As a sample of what the veracious correspondent of the Sentinel says, we quote: "Even the Chicago Tribune, with all its bitterness, never exaggerated matters (in relation to Fremont] in the least" [1 That is enough to stamp the character of the Sentinel's correspondent, as even the Tribune is sick of its assault upon Fremont, and will not again re-assert its charges, in the same manner, and to the same extent it

The publication of a correspondence, reaffirming the Chicago Tribune's assaults, at this late day, after they have all been disproved, and since the President has decided them false by reinstating Gen. Island No. Ten.

There has been but little change at Ir. trenchments on the shore a mile in length, reaching to the upper end of the Island. This, together with the fact that a gunboat, with transports, have passed our batteries at Riddle's Point and Point Pleasant, towards the Island, indicate that the rebels but mean to defend them to the last.

Our military and naval commanders struck somewhere else before they make the final attack. After we hear of a battle at Corinth, or its vicinity, we think there will be music at Island No. 10. The capture of Union City by our troops

is an important movement, as it is situated about twenty five miles cast, and a little south of Island No. 10, and where three railroads unite from the north- and two from the south. There is now no railroad communication within reach of the rebels at the Island.

The Thirteenth Regiment.

We copy the following from the Chicago Tribune of yesterday :

The troops ordered to Kansas some time since for the "Lane expedition," are now being sent to other and more active fields of operation. For some weeks they had been collected at Fort Scott, but at last accounts they had been divided into nearly equal portions—about 5,000 each—to reinforce Gen. Canby in New Mexico and Gen. Curtis at Pea Ridge. Among the troops ordered to New Mexico are the Wisconsin twelfth and thirteenth. The Wisconsin ninth and the second Ohio cavalry go to

In this locality we are all especially in terested in the movements of the thirteenth Wisconsin, and there is a general regret that our fine regiment has been ordered so far away from home and the active theatre of war. We, however, have some doubts about the truth of the above statements. The latest date from Fort Scott received here is to the 22d, and no order for a movement had been received up to that time. Within a few days we have been informed by a gentleman, directly from headquarters at St. Louis, that the thirteenth had been ordered to join Gen. Curtis.

Fort Scott, Kansas, March 21, 1562. Messas. Editors:-The tenor of this letter will not be directed to marvelous incidents and thrilling intelligence. Five regiments are still camped here, waiting for further orders, viz: the 9th, 12th and 13th Wisconsin, 1st Kansas, and 2d Ohio cavalry. Six companies of the Kansas 5th and 6th have recently been ordered to Carthage, Mo., and the 9th Wisconsin have received orders (as I learned this morning) to move from here to Springfield, a distance of 70 miles from, Fort Scott. The 12th and 13th Wisconsin are anxiously waiting for an opportunity to move from here to the land of Dixie, where they can be useful in suppressing the rebellion. Their ambition is stimulated by anxiety from the recent achi eveneuts of our army.

CHICAGO, April 1. Special to the Times, off Island No. 10 inches a day. The rebels have erected a large entrenched camp in the bend of the river, directly in front of our gunboats. An embankment half mile long has been thrown up on the shore, behind which guns are mounted. Large numbers are masked as yet. No means of ascertaining what artillery they have posted at this point, several batteries, however, are plainly visible. Their entrenchments extend from the centre of the bend to the upper point of the Island. They are constantly busy, both with steamboats and men. The mortars fired vesterday and to-day,

every 15 minutes, with what effect we are unable to decide. Shells are all thrown upon the island. The rebels make no answer, except occasional shots at the transports. Occasional firing is heard in the direc-

tion of New Madrid, caused by engagements between the batteries which have been placed on opposite sides of the river below that place. We get no news from there. CHICAGO, April 1. Special to the Journal from Cairo.-Col

This battery, sided by field pieces, was intended to cover the retreat of the rebels through the woods in the rear, in the event of their being driven from the lower batteries. It was well defended by rifle pits. Several men went a considerable distance into the country, but there were no signs of rebel troops nor inhabit ants. had come from his camp at a distance, made some show of courtesy by returning some papers and a watch, as if ashamed of this mode of warfare, for these were the very same troops that, with a sufficient force, means, and every material for respectable defense, had ingloriously fled from St. Augustine on our approach. Consistency of the Milwankee Sentinel.

The Milwaukee Sentinel has insisted, in a somewhat dictatorial manner, that the generals whom the President appoints should not be criticised-that we must all support the government, on pain of being considered disloyal, or as aiding the enemy so far as the hands of the administration are weakened by such criticism -in a word, we must not do anything whereby the confidence of the people shall be withdrawn from the President, or the generals in command, whom he appoints. Nevertheless, ia direct violation of its own rule, it allows a correspondent to reiterate stale falsehoods and exploded lies, against Gen. Fremont whom the president has just reinstated in command of an important division of the army, after an examination into the charges made against him. The hatred of the Sentinel towards Gen. Fremont induces it to violate consistency, and in order to do Gen. Fremont a most inexcusable wrong, with safety to itself, it indulges in its enmity concealed behind the skirts of a correspondent, permitting him to say things which it lacks the courage to assert openly, in the face of the public sentiment of Wis-

As a sample of what the veracious correspondent of the Sentinel says, we quote: "Even the Chicago Tribune, with all its bitterness, never exaggerated matters (in relation to Fremont | in the least"!! That Sentinel's correspondent, as even the Tribune is sick of its assault upon Fremont, and will not again re-assert its charges, in the same manner, and to the same extent it once did.

The publication of a correspondence, reaffirming the Chicago Tribune's assaults, at this late day, after they have all been disproved, and since the President has decided them false by reinstating Gen. Freweaken confidence in the general and in president who appointed him, according to to lay down for others. The Thirteenth Regiment.

We copy the following from the Chicago

Tribune of yesterday : The troops ordered to Kansas some time since for the "Lane expedition," are now being sent to other and more active fields of operation. For some weeks they had been collected at Fort Scott, but at last accounts they had been divided into nearly equal portions-about 5,000 each-to reinforce Gen. Canby in New Mexico and Gen. Cartis at Pea Ridge. Among the troops ordered to New Mexico are the Wisconsin fore endeavored to do justice to the occatwelfth and thirteenth. The Wisconsin sion.

In this locality we are all especially interested in the movements of the thirteenth Wisconsin, and there is a general regret that our one regiment has been ordered so day until noon. Here we struck the Terre far away from home and the active theatre | Hante, Alton & St. Louis railroad at Matof war. We, bowever, have some doubts about the truth of the above statements. The latest date from Fort Scott received here is to the 22d, and no order for a movement had been received up to that time. Within a few days we have been informed by a gentleman, directly from headquarters | seut seventeen commissioned officers to the at St. Louis, that the thirteenth had been ordered to join Gen. Curtis.

From the Thirteenth Regiment,

FORT SCOTT, KANSAS, March 21, 1862. MESSRS. EDITORS:-The tenor of this etter will not be directed to marvelous incidents and thrilling intelligence. Five regiments are still camped here, waiting for further orders, viz: the 9th, 12th and cavalry. Six companies of the Kansas 5th | in the cars until daylight. We crossed the and 6th have recently been ordered to Car. river about 8 A. M., and; marched out to thage, Mo., and the 9th Wisconsin have received orders (as I learned this morning) to move from here to Springfield, a distance of 70 miles from Fort Scott. The 12th and 13th Wisconsin are anxiously waiting for an opportunity to move from here to our tents, which we did, and live in them the land of Dixie, where they can be useful | while we stay here. This division in Kansas, is now under the command of Gen. Halleck, and will in all probability be drawn out of the state. Whither we may go I cannot tell, but it is conjectured by some that New Mexico or Arkansas will need assistance. General Deitzler is the acting brigadier general at ago. this post now.

Seventy-five of the sick that were left back belonging to the 9th, 12th and 13th Wiscousin regiments, arrived here yesterday. There are still more back yet. The general health of the 13th is very good, We have but 15, including the convalescents in the hospital here, and some at Leavenworth yet. The general hospital has not far from 50, and half of those are able to go to their meals. The complaints are measles, fever, rheumatism, dropsy and wounds. These are under the care of the brigade surgeon, J. E. Quidar, and Wm. B. Carpenter, assistant. They are gentlemen in every respect, and spare no pains in rendering aid to their patients.

A short time since a private of the 13th, A. B. Miller, from Co. B. died after an illness of two days. The day of his burial the whele regiment were drawn up in battle array before their hospital, and the sleeping soldier was borne along the whole front of the column of men, beneath the stars and stripes which shrouded his coffin. He was borne along to his quiet grave with a procession consisting of the whole regiment with the exception of a few. There is always something exciting to most minds connected with the first moving of a regiment to the seat of war. The result of much conjecturing and many systematized plans based upon the thousand and one reports that pass from camp to camp, and are caught up and amended or lic. We learn that the enemy has been at changed to suit the particular philosophy work, erecting batteries to operate on our of each high private, who, of course, feels gunboats, having recently unmasked en himself responsible for every act and movetrenchments on the shore a mile in length, ment of the entire regiment, is now about reaching to the upper end of the Island. to be decided. There is another class of This, together with the fact that a gunboat, "free thinkers," or think not at all, just as you do not accept it, and return to your al with transports, have passed our batteries they please; they sing "John Brown" and at Riddle's Point and Point Pleasant, tow- "Dixie," and do not appear to care whethards the Island, indicate that the rebels er "school keeps or not." They want to go have no disposition to abandon their works, to war because everybody else is going. No doubt their patriotism is perfectly sound, Our military and naval commanders but they fight more for "the fun of the there appear to be waiting for a blow to be thing" than anything else. And again, struck somewhere else before they make there are others who, after much thought the final attack. After we bear of a battle and anxious solicitude, waiting and hoping at Corinth, or its vicinity, we think there | for the end of this most whicked rebellion, have resolved to sacrifice for a season the comforts of home, the social ties of family is an important movement, as it is situated and friends, and, if necessary, their lives, about twenty five miles east, and a little rather than to see "a stripe of our banner erased or a single star obscured."

But I must not stop here to discuss this matter further, as I have scarcely time tocommunication within reach of the rebels day to give you an account of matters pertaining to our trip here. We arrived in Chicago about 4 P. M., escorted by the Milwaukee Light Guard and a band of music, got off the cars and marched over to the Central depot. After the men were safely on board, the commission, staff and line officers were invited to dine at the Tremont House, which, by the way, was most acceptable, I assure you. We had not slept any the previous night, and most of us had been without dinner, only as we could snatch it up by the way. We there-

We left Chicago at 7 P. M. Some difficulty occurred in the movement of our long trains, and the result was we were some behind time. Then commenced a veries of delays which lasted all night and the next toon, stopped about an hour, and dealt out one day's rations to the men, and got dinner. The men were also served with hot coffee. From what I gathered from a citi zen I thought this quite an aspiring town. It contains a population of 1,700, and has war. It may be this is a light spot in Egypt, which has not been particularly distinguished for either its intelligence or patriotism, or it may be their patriotism was sound only on condition that their claims to office were answered. The situation of the camp is beautiful, but the barracks have been badly used; we saw nothing particularly inviting in them, so we preferred to pitch men in camp here. Tuesday, April 1. SENATE-A resolution providing for an amendment of the constitution, so as to reconstruct the supreme court with five judges was rejected. A large number of bills were passed. Considerable discussion was had upon a bill to provide a tax for war purposes. The proposition to issue \$200,000 in bonds was opposed strenuously by Sena-tors Hopkins, Clark and others, and favored by Senators Foot, Spooner and others. It was finally adopted, and the bill ordered to a third reading. The bill of the farm mortgagors was discussed at considerable length, and ordered to a third reading-

ASSEMBLY-A reinvestigation of the subect of the geological survey so far as Prof. Hall is concerned, was this morning ordered. Prof. H. is in the city and the subject is reopened at his solicitation. He claims that great injustice has been done. The bill revising the school laws which has occupied so much time, after being hopelessy addled by legislative incubation, was inlefinitely postponed. A large portion of the morning session was occupied on a bill exempting lands belonging to Appleton University to the amount of \$10,000 from taxation. It was ordered to a third read-

A telegraphic despatch from Gov. Harvey dated St. Louis, directed to Treasures Hastings, urged the immediate passage of the Allotment Commissioners bill. It was passed after being amended so as to send it back to the Senate. As passed, it appro printes \$1,000 per annum to each comnissioner, besides his expenses, and makes the State Treasurer the Treasurer of the allotiments. - Madison Journal.

THE REBEI, OFFICERS AND THEIR SYM-PATHIZERS AT COLUMBUS .- Our Columbus correspondence shows a necessity for a purging of the legislature from treason by a little wholesome expulsion, as well as for a new order of things in regard to the rebe officer prisoners. It is a queer state of af-fairs that these chief criminals should be around loose, with their side arms, which in the field seem to be so purely ornamental, mingling with their sympathizers, while the privates, many of whom would be glad to renounce the rebellion and renew their allegiance to the government, are closely confined. The practice of allowing prisoners to flourish their side-arms has been 'vastly overdone, and the sympathy shown for them will hardly be gratifying to our brave sol diers who are sacrificing their lives in the field, or to our soldiers who are prisoners in the south .- Cincinnati Gazette.

Last Night's Report.

Special to the Times, off Island No. 10, March 31 .- The river is falling several inches a day. The rebels have erected large entrenched camp in the hend of the river, directly in front of our gunboats. An embankment half mile long has been thrown up on the shore, behind which guns are mounted. Large numbers are masked as No means of ascertaining what artillery they have posted at this point, several batteries, however, are plainly visible. Their entrenchments extend from the centre of the bend to the upper point of the Island. They are constantly busy, both with steamboats and men.

The mortars fired yesterday and to-day, every 15 minutes, with what effect we are unable to decide. Shells are all thrown upon the island. The rebels make no unswer except occasional shots at the transports. Occasional firing is heard in the direc-

tion of New Madrid, caused by engagements between the batteries which have been placed on opposite sides of the river below that We get no news from there.

CHICAGO, April 1. Special to the Journal from Cairo.—Col Buford, yesterday, accompanied by the 27th and 42 Illinois, and part of the 15th Wisconsin, from near Island No. 10, with a de-tachment of cavalry and artillery from Hickman, under Col. Heg, made a desent upon Union City. After a forced march of 30 miles they fell upon the bebels encamped at 7 o'clock in the morning, and dispersed the entire force stationed there under Clay King, both cavalry and infantry. They fled in every direction. Several of the enemy were killed, and a number taken prisoners A large amount of spoils captured, consisting of one hundred and fifty horses. commissary and quartermasters stores, &c. Gen. Ewell, of Drainesville noto riety, was in command, on the return o our forces to Warrenton Junction. The rebels hover around the outskirts of our army, and frequently succeed in pick-ing up small parties of our men, who, contrary to commands, go out on feel on foraging expeditions.

Information has just been received from

They report the steamer St Nicholas and one other, which formerly plied to different points on the Rappahan nock, as being held in readiness to trans port rebel troops down the Rappahannock to some point.

Other rebel troops are reported as hav ng gone down York River to reinforce the enemy's position at the mouth, where the rebels have batteries. Small detachments of rebel cavalry still occupy Acquia Creek and as far up as Dumfries. Another magazine has been found at Shipping Point containing a large quantity of shells.

Yesterday the Jacob Bell and Sterping Stone visited Evansport. A boat's crew from each vessel was sent on shore. They visited nearly all the batteries in that vi cinity, including one on a high bill about half a mile back of Evansport, where was found the gun that Capt. Eastman had at tempted unsuccessfully to burst. It was a 32-pounder. This battery, aided by field pieces, was intended to cover the retreat of the rebels through the woods in the rear, in the event of their being driven from the lower batteries. It was well defended by rifle pits. Several men went a considerable distance into the country, but there were no signs of rebel troops nor inhabitants. Both parties of seamen subsequently returned on shore in charge of Lieut Commanding McRea, of the Jacob Bell, and proceeded inland, where they found five rebel store houses, containing heavy cutting machines, platform scales, and other useful apparatus and implements. They set fire to the buildings, which were entire-

ly consumed. A citizen of Cambridge, Mass., who went to Bull Run to recover the remains of his brother, who belonged to a Boston company, gives a melancholy account of the sacrilege committed upon the graves of our soldiers by the rebels. About twenty of the Boston company and Chelsen company had been buried near each other, but near ly every skull had been taken away, and nearly all the principal hones of the bodies were gone. Some of the bodies had been dug out, and others pressed out of the graves with levers, and in some the sleeves of the uniforms were slit to obtain the of the uniforms, bones of the arms, MILWAUKEE, April 2.

House.—The house went into committee of the whole on the tax bill. An amend ment was adopted exempting from taxation. ander the railroad and steamboat section d! foreign emigrants traveling at reduced rates of fare into the interior of the coun ry, a distance of over 100 miles from the

ea coast. During the proceedings the house found itself without a quorum, and much time was consumed in securing one.

Several amendments were made to the above section, including a tax of one and a half per cent. on the gross receipts o bridge corporations.

SENATE.—Mr. Summer offered a resolution that the committee on the conduct of the war be instructed to collect evidence in regard to the barbarous treatment by the ebels at Manassas of officers and soldiers of the United States in the battle there.

Mr. Howard moved to enlarge the resolution so as to include an inquiry whether the rebels culisted the Indians who have committed unheard of atrocities, and how this strange warfare was conducted. If he was commanding general, he would not make prisoners of men who were serving side by side with Indians. The resolution thus amended was adopted.

Sr. Louis, March 31. Gen. Curtis issued the following special order, dated headquarters of the army of he south-west, March 26:

"Charles Morton, Hamilton Rennada and Alexander Davis, colored men, former y slaves employed in the rebel service, and aken as contrabands of war, are hereby confiscated, and not being needed in the public service are permitted to pass the pickets of this command northward, with out let or hindrance, and are forever eman cipated from the service of the masters who allowed them to aid in efforts to break up the government and laws of our coun-

WHY THE REBELS AT FORT DORELSON WERE NOT RE-ENFORCED.—The Baltimore correspondent of the N. Y. Hearid tells the following interesting story, which we do not remember to have seen before: On Friday, February 14, Gen. Johnston,

who was then preparing to evacuate Bow ling Green, sent a telegraphic dispatch to Gen. Pillow, asking him if he needed any more troops; if he did, he would send him all he wanted immdiately. Johnston could have done this, as there was a direct railroad communication between them with plenty of cars. But Pillow never got the dispatch. At the end of the telegraph line nearest to Fort Donelson was an op-erator who was a Unionist at heart, although he did not dare to express his sentiments. He kept the dispatch, therefore, nstead of forwarding it to Pillow, and on he next day, Saturday, telegraphed back in Pillow's name to Gen. Johnston, saying that he had no need of re-enforcements, and that he was abundantly able to maintain his position. On Saturday evening he again telegraphed to Johnston in Pillow's name, stating that be was fighting gloriously, and would be able on the next day to drive off the Union troops. On receiving these dispatches, purporting to come from Pillow, General Johnston took no steps to succor the rebels at Fort Donelson, and they were forced to surrender. The deception of the operator was discovered, and he was captured just as he was tryingto escape to the Union lines. He was hung by sentence of a court-martial.

In the strongly I have heard him prophesy that we should republican 3d ward a democratic alderman have just such trouble with it as we are is elected by 48 majority, and in the 4th ward, which gave Mr. Due 116 majority, and other democratic candidates from 39 to \$5 majority, Mr. Pattison the republican candidate for alderman is elected by 38 majority. The whole republican city ticket might have been, and ought to have been elected, as the vote for Messra. Lawrence and Patten for school commissioner shows the party vote as far as it was brought out. A large balance is in our favor, but as there is no appeal from the will of the people we must make the most of what we have got, and hope for a better state of things among our friends hereafter. Nothing very brilliant has occurred on the Potomac during the past week, notwithstanding some of our leading journals have been ready to burst with information in relation to some "big thing" that was about to happen, of which they were told in confidence. There may be a skirmish thereabouts or even another battle of the dimensions of the one at Winchester, Lut nothing more, we predict, will happen in the department of the Potomac. Chaisty's Minstrales .- Next Saturday night this band of minstrels give an entertainment at Lappin's Hall.

April 2d, 1862.

R. J. RICHARDSON.

A Ponderous Balla -- Our readers will be pleased to learn that arrangements are being made to put the two immense gans of Fortress Monroe—the "Rodman," een ech smooth hore, and the "Union, twelve-neb rilled- in a condition for officesive operations. Rifled projectiles are making for the "Union," and huge solid shot for the lifteen inch gun at the Fort Pite Works. The ball is not exactly solid, but is so cast as to secure even greater strength than if unde solid, the core being but four inches in diameter. This opening is filled with head, the hall when complete weighing 430 pounds. They are not made of the common metal used in other shot and shell, but of the very best quality of gun-iron-Bloomfield at that-almost as hard as chilled iron, and nearly as tough as wrought iron. The heavy gutes are turned off in a lathe, and the balls are finished up in the ordinary "ball mill," leaded and shipped. Great exertions have been made to supply the gan at the earliest moment with a sufficient number of shots for any energency. Should the rebel monster Merrimae exposiherself to a fair shot from one of those balls, we can safely wager the head nearest the armor, on the inside, will nobe for a while.

A recent order, we learn, has changed the name of the "Floyd" or "Rodman" gun to the "Lincoln."—Pittsburgh Disputch.

JEFFERSON ON SLAVERY .- A work giving some reminscences of Jefferson, derived from Caprain Edmund Bacon, who was for twenty years the chief overseer and business manager of Jefferson's estate at Monticello, and is still living in Kentucky, has just been published in New York. From this work we extract the following paragraph, which adds to the already abundant evimilitary enlistments from the city, while, as dence we have of Jefferson's aversion to

"No servants ever had a binder master than Mr. Jeff rson's. He did not like Slave elected by three majority, and a democratic about it. He thought it a bad system. clerk by eight majority. THE want of an authentic and thorough History of

who wish for information are compelled to grope through the mazes of the rumors, reports, dispatches, letters and

the mazes of the rumors reports, disputches, tetters and editorials of the daily newspapers, to precipitate, from its confused columns, the great facts and incidents of the struggle for the Union.

To meet this want, and to produce a work of permanent caluear well as of present interest, the publisher has arranged for the Issue of the history as above set forth—in a form and at a price which shall render to correlable to all the control to the same of the listory.

this history will tell the Story 13 1713, giving a clear, consecutive narrative of the entire movement, including all the inclients and events in their exact order, the including all the inclients and events in their exact order,

ing all the incidents and events in their exact order, and containing the important documents and extracts from remarkable speeches. It will not be a merediary, nor a mere enumeration of dry and maked dates, nor a compilation of slips from newspapers, but will postray in connected and interestinguarrutive, therevolutionary

steps, as well as the measures of the government.
It will carefully digest all evidence—will sin all ru-

mors and reports—will fix upon facts, and correct so far as possible the errors and discrepancies incident to

the hasty narratives of the newspapers.

It will be written in a style suited to its theme—at once graphic, earnest and luminous, introducing such

sersonal and secial incidents as may serve to show the clations of individuals and communities to the grand

events of the time.

It is true, everybody reads the newspapers, but the reports of the newspapers are the fragmentary and contradictory children of the moment, and not a correct, connected and complete history. The above publication,

ferwards bound in a h undsome volume, will be a book for the family, which will be valued like the records of the War of Independence, or the lafe of Washington,

and worthy to be kept for children and grand-children, as a quentrial of the present time.

It will thus prove desirable, availableand satisfactory

to every citizen, every family, every office, every library: and is given to the public in the fall assurance that it will command the approbation of every patriot, every Union man, every good citizen in our still Gierlous

The want of an authentic and thorough History of the Rebel los, for present reference and future preservation, is the subject of general remark. No work of that nature has yet been offered to the public, and all who wish for information are compelled to grope through the makes of the runous, reports, dispatches, letters and editoriate of the daily newspapers, to precipitate, from its confused columns, the great facts and incidents of the struggle for the Urion.

To meet this want, and to produce a work of permanent value or well as at price which shall reader than arranged for the issue of the history as above set forth—in a form and at a price which shall reader it occeptable to all.

This history will reli the Story as It is, giving a clear, consecutive narrative of the enture movement, including all the incidents and events in their exact order, and containing the important documents and extracts from remarkable speeches. It will not be accretizing, nor a nere enumeration of dry and naked dates, nor a compilation of alips from newspapers, but will portray in connected and interestinguarrative, the recolutionary steps, as well as the measures of the government.

It will carefully digest all ordence—will sift all rumors and reports—will fix upon facts, and correct to far as possible the errors and discrepancies incident the heasty narratives of the newspapers.

It will be written in a style suited to its theme—at once graphic, extrest and luminous, introducing such personal and social incidents as may serve to show the relations of individuals and communities to the grand events of the time.

relations of individuals and communities to the grand events of the time.

It is true, everybody reads the newspapers, but the repetits of the newspapers are the fragmentary and contradictor; children of the moment, and not a govern, connected and complete history. The above publication, afterwards bound in a handsome volume, will be a book for the family, which will be valued like the records of the War of Independence, or the life of Washington, and worthy to be kept for children and grand-children, as a memorial of the present time.

It will thus prove desirable, available and satisfactory to every citizen, every family, overy office, every library; and is given to the public in the full assurance that it will command the approbation of every patriot, every Union man, every good citizen in our still Glorious Land.
